

American Appraisal – Machinery & Equipment Valuation Services

About Industrial Valuation Group

We are the region's most reputable team offering machinery and equipment appraisals. Our Industrial Valuation staff prepare valuation studies for all aspects of manufacturing – from a single piece of equipment, through an entire production line of machinery, to a whole manufacturing plant.

Since the values of these tangible assets change constantly and vary according to economic, functional and physical conditions, only a professional company like AAC can give valuable opinions essential for corporate decision making. In 1988, AAC became the first valuation company in the region to provide machinery and equipment valuation services for the purpose of public listing in Hong Kong.
